Memo:

LR 21-91.

Correspondence ending with Assistant Chief Engineer's letter No: 4133 Dy 16th September 1892 regarding the application of Pleader Vakkaleri Krishna Rao for Survey No: 24 measuring 37 acres and 3 guntas in the Angatatti village, Sugatur Hobli, Kolar Taluk

---

In his letter No: 175/36 dated 8th April 1892, the Deputy Commissioner of Kolar stated that Survey No: 24 measuring 37 acres and 3 guntas formed part of the bed of the abondoned tank of the Angat[illegible] for

-rigated by the Somam-
-buri tank situated in
the neighbouring village
of Somambur and that
the Chief Engineer had
no objection to the grant
of the land on Sandayam.
He also solicited orders
to assess the land in
question, divide it into
small numbers and
sell the same by public
auction, as some of the
villagers of Angatatti
objected to the grant of
the land to outsiders
and requested that the
same might be granted
to them on Sandayam,
while others desired the
restoration of the tank.

Vide Executive Engineer's endorsement No: 1469 5th May 1891 on Krishna Rao's petition.

Subt. Chetty

Vide Proceedings No:
1973
RB22-12 dy 31st July 1892.

2. Thereupon the Chief Engineer was requested to report whether there was any objection to the grant of the lands in question for cultivation purposes, and whether there was any chance of the tank being restored.

3. In reply, the Assistant Chief Engineer forwards copy of Kolar division Executive Engineer's docket stating that the left-bank channel of the aforesaid Somambudi tank which runs in the bed of the Ankatatti tank can conveniently irrigate all its lands that there is no necessity for the restoration of the Channel

* Vide tracing of the Channel appended hereto for file.

that the lands in its bed may be given out for cultivation.

4. There are however some inconsistencies as shown in the appended extracts from the depositions given by Patel Nanjegowda and others on one side and Chikka Appanna and others on the other as regards the usefulness of the present tank for supplying drinking water to the village cattle &c. The Deputy Commissioner's report is silent on this point Orders are solicited as to whether the Deputy Comm'rs proposal ~~[illegible]~~ ing out of

The Dy Cr Akerikere Nobedavanahalli to ascertain the real facts may be ascertained & a report submitted

the land by public auction
may be sanctioned or
whether he may be asked
to report whether the

IV D.

The Depositions given by Patal Nanjegowda and 10 others of Ankatatti village before the Kolar Taluk Amildar seems to be at variance with that given by Chickkappanna, Hobahalli — Muneappa and 7 others of the same village.

Extract from deposition given by Patal Nanjegowda and 10 others

1. The tank is in the same state as before and there is no breach to allow the water which it receives to run out. As much of water as stays in the bed flows below the tank through its sluice & is utilized for cultivating our lands with wet crops sugar cane crops and Chilli plants.

2. The Somabudi tank is at a distance of 3 miles from this tank in our village and the channal water which has to pass such a

Extract from deposition given by Chickappanna and 7 others.

1. The rain water which falls on the bed of our tank will not remain for more than 3 days. There is no use of this bed water to the lands below the tank. The sluice of the tank is blocked up and no water flows through it.

2. There is a distance of a mile and a half from the Somambudi tank to the lands be- the Revenue our tank a [illegible] plyed stated that in

cannot water easily irrigate
therefore irrigate our lands. the lands below our tank
as also the lands in
the neighbouring villages.
Last year we cultivated
our lands below the tank
by the channel waters.

---

3. If the lands in the bed are to be granted on Kandayam, the lands below the tank will be left uncultivated and cattle will suffer for want of drinking water. Therefore the tank should be permanently restored.

3. We have no objection whatever to the lands in the bed being divided into convanent Nos and given out on assessment and also to the tank being abandoned by Government.

4. We do not want to take up the lands in the bed of the tank or be granted to Kandayam nor it should be granted to others

4 We pray that the lands in the bed may be granted to us, as we are the inhabitants of the village.

Serial No (7)

8 In reply to further information called for in this Memo No 4227/173.93 dated 5th Sept/94. the Dy. Commr of Kolonna now submits further report

No — (8)

It would appear that the Treasury Asstt. Commr W. K. S. Dorasamy Iyer inspected the lands in question and made a report to the Dy. Commr in the terms referred to in his No. 24 and that owing to his temporary absence the fair copy was signed by Mr Hema Kumaramanthanya

Snd to No (5)

9. There are garden lands below the abandoned tank measuring 7a. 36 qutas and assessed at Rs. 41.4. The garden owners are in favor of restoring the tank and one of them wants the bed to be given to him in preference to others on the ground that the tank was originally built by his ancestors. The Amildar states that if the Revenue

[illegible] asked that in

gardens contain no Dharma
fayam and therefore there is
no necessity to store water
in the tank When the lands
in the bed of the tank are
brought under cultivation
the moisture will benefit the
garden lands also The Dy.
Comm^r adds in conclusion
that the Somambudy Tank
which was improved at great
cost ~~and on Works Dte~~ will
supply more than 200 ℔ of water
to the garden lands in question
and that therefore withholding
the bed from going out for
cultivation will not only be
a loss to Govt but it would
give room for encroachments

LR 21-91-1

The Chief Secretary to the Dewan
of Mysore

Sir,

I have the honor to state that Vaikkaleri Krishna Row, 1st grade Pleader, practising in the Courts of this District has applied for Survey No: 24 measuring 37 Acres and 3 guntahs of land attached to the Angatahi Village, Sugatur Hobli, Kolar Taluk for cultivation.

2. The land forms the bed of the abandoned Tank of the said village and can be irrigated by the Sonambudi Tank, the capacity of which has been increased by improvement by the D. P. W. and the Executive Engineer has no objection to the grant of land on Kandayem (Vide his endorsement No: 146 dated 5th May 1891).

3. Some of the ryots desire that the abandoned Tank should be restored while others object to the giving out of the land for cultivation to outsiders, and pray that it may be granted to them on assessment.

4. I requested the Superintendent of Revenue Survey to assess the land which in reply stated that in

Under the present Government Sanction is

REG'D. NO. 11 AUG. 92 SORE P. W. DEPT.

5. Under these circumstances I solicit sanction to assess the land in question with a view to the same being granted on Kandayam. The land will be divided into small convenient numbers and sold to the highest bidders by public auction which will give no room for complaint by the villagers or the applicant.

6. The vernacular records connected with the case are herewith submitted for further information and obliging return when no longer required.

I have the honor to be,

Sir,

Your most Obedient Servant,

[signature]

Deputy Commissioner

Read :— IR 21-91-2

Letter no. 175/36 dated 8th April 1892 from the Deputy Comm^r Kolar District, forwarding the file of correspondence connected with the application of Rhader Vallkale Krishna Rao of Kolar praying for the ~~grant~~ allotment for cultivation purposes of survey no. 24 in the Aukatati village in the Sugatur ~~village~~ Hobli of the Kolar Taluk, measuring 37 acres 3 guntas, which is shown in the Survey accounts as Kharab as it forms the bed of Aukatati Tank. ~~and applied for~~

Dep 1966/R 322-92 D/ 31-7-92/10-8. Order thereon

It is clear from the record that the tank whereof the land applied for forms the bed and is on this account shown as Kharab in the Survey accounts and left unassessed has since been abandoned and that the Public Works department have otherwise adequately provided for the irrigation of the lands below the Aukatati Tank so as not to put the Existing occupants of the said lands to any inconvenience

2. The objection raised by the inhabitants of the village that the land should be assessed and granted to them and not to a stranger, cannot be entertained.

The letter read above may be forwarded to the Chief Engineer with a request that he may report whether there is any objection to the lands in the bed of the Tank being given out for cultivation & whether there is any chance of the Tank being restored.

20/7/92

31/July

3. Under the circumstances of the case the recommendation of the Dy: Commr: to apess the land in question, to have it subdivided into small convenient numbers and sold to the highest bidders by public auction, subject to the Conditions prescribed in section 11 of Rule 20 of the Land Revenue Rules is approved

4. The Superintendent, Revenue Survey will be requested to apess the land in question

Section 11 provides for applications for tanks which have not been permanently abandoned by the D.P.W.D. This tank has been abandoned by the D.P.W.D.

Kolar District

Sir,

With reference to your docket No 2351/1532 dated the 2nd February last calling for further information in regard to a proposal to assess certain lands forming the bed of the abandoned tank of Anketti Village of Kolar Taluk, I have the honor to report that I inspected the tank this morning. The lands below the tank are cultivated from the water of the Somanhadi tank. The complaint of the ryots is that if the bed of the Anketti tank should be assessed and given out for cultivation, their cattle will suffer for want of water. This Complaint is frivolous. The tank in its present state is not capable of holding even a months supply. It is in a very dilapidated condition. The tank was abandoned by the Public Works Department. In my opinion the bed should

should be accessed.

The Vernacular papers received with your docket under reply are herewith returned

955

Kolar Deputy Commissioner's Of
Dated the 29th January 189

From

The Deputy Commissioner
Kolar District.

To

The Chief Secretary to the
Dewan of Mysore.

Sir,

Adverting to your Docket No: 42
R.F.1
dated the 5th September 1894 regarding
office proposal to assess certain lands fo
the bed of the abandoned tank of Anka
village, Kolar Taluk, I have the honor
state that the Treasury Assistant Commi
letter No: 24 of the 3rd May 1893 referre
was drafted by Mr K. S. Doraswami
who inspected the tank on that date an
fair copy was subsequently signed by
Hanumantiah when the latter had assu
temporary charge of the Assistant Commissi
offices consequent on the absence of the
named officers on leave.

2. There are certain garden lands bel
abandoned tank measuring 7 acres, 36 gu
and bearing an assessment of Rs 41-4-
particularized in the statement attache

Vernacular file of records herewith submitted for reference and obliging return when no longer required.

3. The Amildar reports that the garden owners are in favor of the retention of the tank though one of them (Ramappa) wants the bed to be given out to himself on assessment in preference to others on the alleged ground of the tank having been originally constructed by his ancestors on Kodagi tenure. He adds that as these gardens are only of a minor sort (Chillar Bagayet) containing no Dhruva pairu, there is no necessity to store any water in the tank for their upkeep and that when the lands forming the bed are brought under wet cultivation, the moisture thereof will benefit the garden lands below.

4. And I need scarcely add that the Somambudy Tank which was improved at a great outlay and on which the lands below the tank under reference have to depend for irrigation will supply more than enough of water to the trifling area of garden lands of Chillar Bagayet by means of channels which the owners of both the wet and garden lands can easily excavate and in my opinion to

withhold

withhold the bed from being given out for cultivation will be a loss to Government while it would give room to the adjoining land holders for encroachment.

I have the honor to be,

Sir,

Your most obedient Servant,

for Deputy Commissioner,
Kolar District.

Draft as forwarded

Read:- LR 21-91-8

Correspondence ending with letter No 2691/955 dated 29th January 1895 from the Deputy Commissioner of the Kolar District, on the subject of assessing & giving out for cultivation, Survey No 24 measuring 37 acres 23 guntas & forming the bed of the Angalatti tank in the Bugatur hobli of the Kolar Taluk.

Order thereon No 19690-91 dt 4/5/95
RT. 173-93

As recommended by the Deputy Commissioner, the land above referred to will be split up into small numbers and given out for wet cultivation to

be irrigated by the left bank Channel of Somambadi Agrahaara tank, Serial No 695, of the Ramasagara Series, the assessment ~~thereon~~ on the sub-divided nos. being fixed in communication with the Superintendent, Revenue Survey. As there seems to be much competition, the land should be sold by public auction.
